June 13, 2016

Published by Dr. Gene Blythe

Several new varieties of *Calibrachoa* (million bells) have received top ratings for their flower production and bright colors in our container trials this spring. These new *Calibrachoa* hybrids are from Proven Winners and are classified as medium vigor varieties. All are vegetatively propagated and require good drainage for best growth.

Above:

Calibrachoa Superbells® Morning Star (top), new for 2017

Calibrachoa Superbells® Evening Star (bottom), new this year

Right:

Calibrachoa Superbells® Grape Punch Improved (top), new for 2017

Calibrachoa Superbells® Tropical Sunrise (middle), new for 2017

Calibrachoa Superbells® Yellow Improved (bottom), new for 2017
