Volume 4, Number 4

May 1, 2017

Published by Dr. Gene Blythe

With staggered planting dates from mid-February to the end of March, petunias in the SUCCESS!<sup>®</sup> series (from Benary) have provided a colorful display for weeks in our winter/spring container trials. This series of trailing petunias can be used in containers, baskets, and the landscape. Be sure to visit our Trials Gardens to see how all 14 colors of SUCCESS!<sup>®</sup> petunias are performing in containers and in the ground.

Above/top: Petunia SUCCESS!<sup>®</sup> **Blue** (and moving into the background: Pink, Pink Vein, Rose, and a few White ).

Above/bottom: Petunia SUCCESS!<sup>®</sup> **Lavender**

Right/top: Petunia SUCCESS!<sup>®</sup> **Salmon** (next background row: Purple and Red)

Right/middle: Petunia SUCCESS!<sup>®</sup> **Pink Chiffon**

Right/bottom: Petunia SUCCESS!<sup>®</sup> **Pink Star**
